9 Deards Wood

This modern, detached 4 bedroom home was built as a celebration of the incredible 40 years of Netherdown. Featuring glazed gables, feature dormers to the first floor and black larch boarding contrasted with a render band to the base and gables, it's a truly striking home maintaining high standards with its bold interior design and hidden features.

The entrance hall is a standout feature in its own right, with a fully glazed porch giving a view to the wrap-around garden and feature front door from RK Systems.

As with all our homes we pride ourselves on using energy saving construction methods with high levels of insulation throughout to ensure efficient energy use.

Some of the stand-out features include anthracite slim-framed aluminium windows and doors throughout, a bespoke fitted kitchen with bi-fold doors to the rear garden and patio area, bi-fold doors from the lounge onto a second patio area and the beautiful enclosed wrap around garden with landscaped lawn.

The garage adjacent to the property was designed in keeping with the main property and has the same striking exterior style.

Key Features

-  STANDOUT MODERN EXTERNAL DESIGN
-  HIGH LEVEL OF ENERGY EFFICIENCY
-  MODERN HANDLE LESS FEATURE KITCHEN
-  DUAL ASPECT GARDENS
